

## Hanseatic International Ski Races Saturday 31<sup>st</sup> July and Sunday 1<sup>st</sup> August 2021

Welcome to the official bulletin issued by the organizing committee of the Hanseatic Ski Race event 2021.

For the sixth year we are staging Formula 1, 2 and 3 water ski racing in the Historic Maritime Quarter of Kings Lynn on the South Quay. Ready to rival the Diamond Race which is a world-renowned water ski race in Belgium, close to the Hanseatic town of Antwerp this event will be of a high octane nature with racing speeds of close to 100mph.

Watch from the banks of the River Ouse whilst competitors' race across the choppy water surface. We hope this will be an unforgettable experience and one to continue for years to come.

Many of you will have visited Kings Lynn with it only being 20 miles from Hunstanton where the World Water ski Championships were held in 2005.

Kings Lynn is a historic Market town boasting many Restaurants and shops, and we hope the enclosed information will help you plan your time in Kings Lynn and lead to 2 full days of exciting Ski Racing.

Studio20a

# HISTORY OF KING'S LYNN

King's Lynn, originally known as 'Lin', is thought to have derived its name from the Celtic word for a lake or pool, and it is recorded that a large tidal lake originally covered this area.

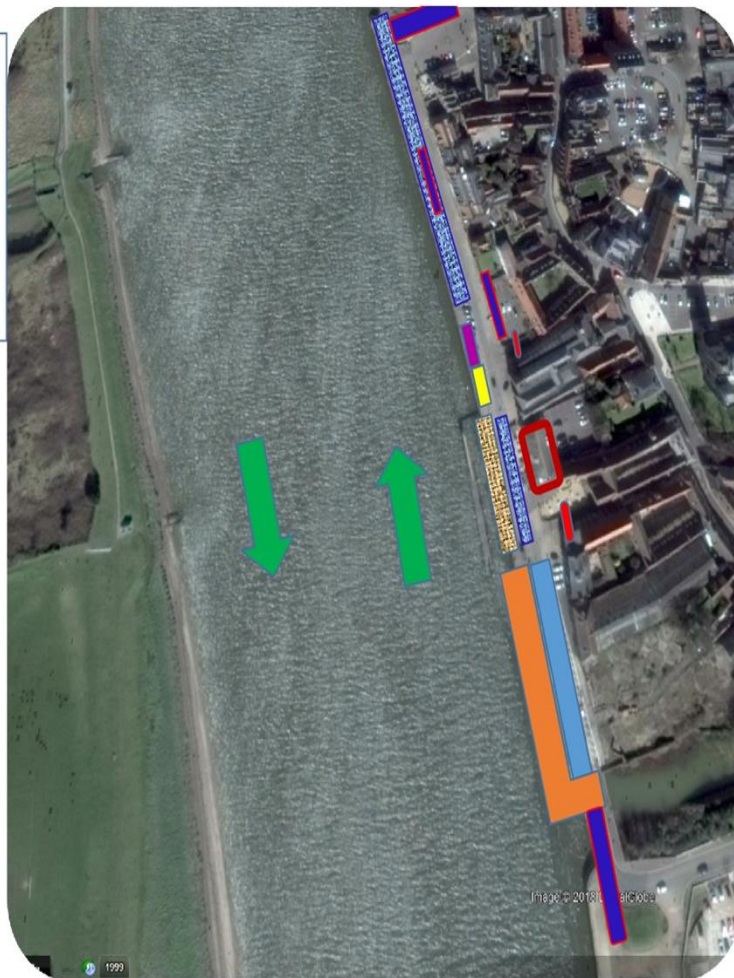

In 1101 Bishop Herbert de Losinga of Thetford began the first Medieval town between the Purfleet and Mill Fleet by building St. Margaret's Church (now King's Lynn Minster) and authorising a market. A small prosperous town grew up quite quickly and, in 1204, following a charter from Bishop John de Grey of Norwich, the town became Bishop's Lynn (Lenne Episcopi)

Trade built up along the waterways that stretched inland from Lynn, and the town expanded and quickly filled the space between the two rivers, Millfleet to the south and Purfleet to the north. By the late 12th century, a further period of expansion began, more deliberately planned than the first, with wider straighter streets and a much larger marketplace – this is the second Medieval town between the Purfleet and Gaywood River or Fisher Fleet.

Bishop's Lynn grew rich on trade, both within Britain and abroad.

[The Hanseatic League](#), a powerful German trading organization made up of merchants from North Germany and neighboring countries around the Baltic Sea contributed greatly to this prosperity. The legacy of trade can be found in the many merchant houses and other fascinating buildings in this medieval port. After the dissolution of the monasteries by Henry VIII, Lynn changed its name to Lynn Regis – subsequently King's Lynn – remaining an active port to this day.

There is also a local ferry which before and after the racing which is a regular passenger ferry service operating between the historic centre of King's Lynn and West Lynn.

The service has been running since 1285 and provides an ideal way to view the beautiful historic quayside of King's Lynn from the other side of the River Great Ouse at West Lynn.

The Ferry also provides a convenient service for commuters and shoppers who wish to avoid travelling and parking in the town centre.
